

G75C200

DOOR CLOSER

DOOR CLOSER WITH BRAKE FOR GLASSES UP TO 200KG

The G75 TRIVEL's door closer has become a referent, imposing itself in the market thanks to its optimal functionality and durability.

His performance stands out because of the effectivity of the two closing speeds with assisted break, one of closeness up to 25°, and the final closing at 0°.

TRIVEL increases the door closer family with a new model, the G75C200 for glass doors of bigger dimensions and up to 200Kg, with a maximum width of 1500mm.

The new G75C200 (Grade 8 certified) expands the specific range of TRIVEL fittings for doors of big dimensions. A brand-new line of products that respond to the new requirements of interior design and architecture, with more minimalistic fittings that support glasses of bigger dimensions.

**NOVELTY 2024****FOR GLASSES UP TO 200KG**
